**EXCLUSIVE R³ Lift Belt is
50% stronger – an
Industry First!**
Patent Pending

**Hand-held controller lets
you lift and store your
power chair or scooter
while sitting inside the
vehicle cab!**

Photos show a power chair.
Operation may vary on the
type of equipment raised or
unloaded.

Note: vehicle shown is
equipped with the Bruno
Convenient, optional Pow'r
Topper™ Tilt Cap and EZ-
Rizer. (The Out-Rider can be
used without this option.)

- ◆ The Bruno Out-Rider Vehicle Lift will add a new dimension to your lifestyle, giving you the freedom to drive a pickup truck whether you use a folding/rigid wheelchair, scooter or power chair.
- ◆ The Bruno Out-Rider is fully automatic. Its unique design – along with our optional, easy-to-operate, hand-held controller – lets you lift and store your mobility device in the bed of your standard or long-box pickup while sitting in the cab. The Out-Rider can easily lift a folding/rigid wheelchair, scooter or small power chair weighing up to 200 lbs. (For certain applications, an optional, heavy-duty Out-Rider version is available with a 300 lb. lifting capacity.)
- ◆ The Bruno Out-Rider can be installed on either the driver- or passenger-side and utilizes the vehicle's existing battery. Installation requires no welding or structural modification. Plus, the Out-Rider's durable design gives you the flexibility to use it during adverse weather conditions.
- ◆ Bruno also offers the **EZ Rizer™** and **Turny™ Seat Lift System** to assist individuals who have difficulty transferring in and out of full-size pickup trucks. And, Bruno's unique **Pow'r Topper™** Tilt Cap covers your mobility device.
- ◆ **EXCLUSIVE!** Bruno's R³ Lift Belt is 50% stronger! Count on Bruno's R³ Lift Belt for ease of use, longer life and safer operation – *another Industry First!*
- ◆ Expert installation and complete, after-sale service is provided by Bruno's worldwide network of dealers.
- ◆ Only Bruno has over 25 different interior/exterior scooter, wheelchair and power chair lifts for nearly any sedan, mini-van, sport utility vehicle (SUV), full-size van, pickup truck and the new cross-over vehicles.
- ◆ All Bruno Lifts are eligible for reimbursement under the terms of Mobility Programs offered by GM, Saturn, DaimlerChrysler/Dodge, Ford, Toyota, Lexus, Volvo and Volkswagen.

BRUNO

Cab-Sider™

- ◆ The Bruno Cab-Sider Vehicle Lift gives you the advantage of driving a pickup truck while still being able to store your wheel chair inside the cab, protected from the weather. It's compact enough to allow small items or soft luggage to be placed in the cab area when the chair is stored. Plus, the truck bed remains free for other use and can even be equipped with a cap, if desired.
- ◆ The Cab-Sider is simple to operate and is electrically powered from the vehicle's battery. Just roll the wheelchair next to the vehicle, transfer, and use the hand-held controller to do the rest. Unloading the chair is just as simple and trouble-free!
- ◆ Simple installation means easy removal when it comes time to trade in your vehicle.
- ◆ The Cab-Sider is available for any full-size or compact truck that features an extended cab with a fourth door. This includes: Dodge Ram, Chevy S-10, Chevy C/K, Siverado, GMC Sonoma, GMC Sierra and the Ford F-150, F-250 and F-350 pickup trucks.
- ◆ **EXCLUSIVE!** Bruno's R³ Lift Belt is 50% stronger! Count on Bruno's R³ Lift Belt for ease of use, longer life and safer operation – *another Industry First!*
- ◆ Expert installation and complete, after-sale service is provided by Bruno's worldwide network of dealers.
- ◆ Only Bruno has over 25 different interior/exterior scooter, wheelchair and power chair lifts for nearly any sedan, minivan, sport utility vehicle (SUV), full-size van, pickup truck and the new cross-over vehicles.
- ◆ All Bruno Lifts are eligible for reimbursement under the terms of Mobility Programs offered by GM, Saturn, DaimlerChrysler/Dodge, Ford, Toyota, Lexus, Volvo and Volkswagen.

Represented By:

The Lift weight rating is the MAXIMUM load value. Factors inherent to specific applications including, but not limited to, vehicle structure and condition, operating environment, and customer ability may reduce the effective weight rating.
